

Front End Web Designer

web design / web production / client liaison

About the job

We're looking for an energetic web designer with a solid knowledge of web standards and an impressive portfolio. We would expect any new team member to be very people-friendly, extremely code savvy, really focussed on client satisfaction and in-tune with the latest web trends and technologies.

The role will entail working with our creatives in the UK and US.

Those All Important Job Necessities

- A proven track record with at least 2 years of experience in front-end web design
- Great interpersonal skills, comfortable with face-to-face, email and telephone conversations
- Professional and responsible, with ability to work alone and to meet deadlines
- Indepth knowledge of HTML and CSS; must be able to hand-code the front end of a website
- Committed to web standards, and best practices with respect to web accessibility
- Skilled in ensuring cross-browser compatability
- Experience of PHP, WordPress and Textpattern

Just Some of the Other Desirables

- Knowledge of javascript and javascript libraries like jQuery
- Print knowledge and experience
- Illustration skills

Even if you're not an exact fit for all the items listed above, we'd still love to hear from you. Just send us a cover letter explaining why you think your particular skill set and experience would be of value to Ibdesign.

About us

Ibdesign, an international communications design consultancy, has offices in London and Philadelphia. We offer top quality design solutions and marketing strategy to clients in the UK and US, providing creative answers to business problems.

As a company, we planted roots in the UK before expanding to the US. We are seeking a full-time web designer for our UK office.

Location

This post will be based at our London office. Our office is located in N1 4EN.

Salary

£25,000 to £30,000 per annum.

To apply

Please submit a CV, covering letter and portfolio or website links via email to jobs@ibdesign.tv.

No agencies please.
